POLICE! J. BRAZEAU. POLICE!

Mr. J. Brazeau, who has acted as interpreter for the N.W.M.P. for the last three years, has suffered untold agonies from rheumatism contracted while driving dogs on a northern trip. The dread disease first settled in his legs which became very much swollen; but afterwards affected his hands and arms so severely that he had to forego the pleasure of smoking. In fact he became as helpless as could be done nothing to help himself. A trip to Battleford to derive a possible temporary relief proved unsuccessful. He was then sent to Fort Macleod where he was placed under the care of the medical officer of the Royal Northwest Mounted Police. The medicine soon fully aware that a disease so malvolent "was" forced to be cured only by severe treatment, put their patient into a kind of furnace and endeavored to exorcise the "evil spirit" of rheumatism by a sweating process. They also let the patient experience the pleasurable sensation of having the swollen parts punctured by needles. But it was of no avail and Mr. Brazeau considered himself a doomed man. However a medicine that has virtue in it can not remain concealed long and a policeman advised him to try that drug and rheumatism. Templeton's Pink Powder. After taking this so many different remedies of such great expense it is not to be wondered at that he was skeptical as to the result. But two doses of the above remedy produced such a magical effect that he thought it quite in place to be a benefactor to mankind by telling the Ontario Druggist the marvellous effect of his cure. His own words will best explain the result to the public:

"Two Dollars did me more good than all I have spent in seven years."
"To get in and out of the saddle was almost an impossibility."
"If I don't know what rheumatism is no man does."
"I can now attend to duty, in fact, I am a new man."

Thus do Pink Powders speak for themselves

IMMIGRATION, RADY TREAT AT THE QUARANTINE

MONEY PANIC IN LONDON

Mr. R. B. Angus, of the C. P. R.

directorate, who accompanied Mr.

Van Horne and party, in conversa-

tion with a Calgary gentleman yes-

terday, remarked that they left

Montreal with three English gen-

tlemen in their party, all share-

holders in the C. P. R., namely

Messrs. R. Horne Payne, H. Ellin

and T. Jefferson, but that only Mr.

Payne had come through. Tales

of a temporary panic in Lon-

don had recalled to the other two

gentlemen before they had reached

Winnipeg. One of them returning

from North Bay. This was due to

the serious condition of financial

affairs in Australia, and partly to

the bank failures in the United

States. The latter were not of

serious moment, but this fact was

not fully understood across the

Atlantic. Mr. Angus stated, how-

ever, that before Messrs. Ellin and

Jefferson reached Montreal they

were advised that matters had im-

proved, and that their return was

not necessary, but that they had got

so far east that it was not convenient

for them to rejoin the C. P. R.

in the party. In spite of the embargoes

on the British market, shipping

from this port is going on. Dur-

ing the past week no less than 6,

600 head of live stock were cleared

From Thursday's Daily

MacLeod has left this morning for Winnipeg.

Mr. MacLean's condition is very much improved today.

John Lineham, M. A., came from Dewdney last night.

A full train of freight and two passenger coaches well filled left for the north this morning.

Miss Frost has left the office of Vancouver & Co. and gone to Vancouver, to accept a position as stenographer in a law office there.

Yesterday afternoon in the police court Justice Bowell further adjourned the hearing of the Stevens case for eight days. There was no appearance for the prosecution.

No. 1 express this morning was a local from Winnipeg. A westbound and eastbound of coal and general small matter from police cast of what was received at the post office today.

Rev. Dr. Robertson, Superintendent Presbyterian minister, who has been visiting the Macleod and the Moose Creek districts, was a passenger on last night's train from the south.

The eastern papers say: "The name of ex-Speaker Miller, of the Senate, is to be used in connection with the K.C.M.G. It is understood that Edward Blake will shortly be called to the Imperial Privy Council."

Staff Capt. B. B. Cox and Lieut. Lotte Cotes arrived in Calgary this morning from Edmonton. The arrival of the Captain will speak on "Sun Work in England"; tomorrow afternoon there will be a special meeting for all Christians and tomorrow evening "A.S. Work in India" will be the subject. Staff Capt. Cotes is a typical man in evangelistic work and able to speak authoritatively on the themes announced.

From Friday's Daily

Miss Fleming of Portland, Ore., is visiting her sister, Mrs. James B. Jacques.

Moore, Lessou and Hull returned yesterday from their trip to the south.

No. 1 express is reported 17 hours late and is expected in at 7 o'clock this evening. The delay has arisen through a washout near Schreiber. It is wired, however, that the party consisted of John Blaikie, Minister of Railways; Hon. J. C. Patterson, Minister for Militia, Hon. Senator McLaren, one of the most zealous gentlemen in the Senate, and Mr. A. E. McDonald, Minister of War, who are to speak on the construction of the C. P. R. branch lines in the Territories. Before many of our townsmen were around this morning, the members of the party had gathered in the hall of the Hotel Alberta, and the programme of refreshments were served, after which the floor was cleared for the dancer. Miss Miller and Miss Stern furnished the music, and the evening was a very pleasant one.

Dancing was delayed by the arrival of a telegram to Mr. J. O. O. F. in their hall on Thursday evening. The attendance of the members and their lady friends was large, and all thoroughly enjoyed the musical programme, which was aimed at capital style. Among the speakers was Mr. W. F. Cooper, Mr. H. McNeil, Prof. Bell, and Messrs. Saunders, G. O. Heas, and A. W. F. Cooper, the last-named forcing the audience with a round. Mr. A. E. McDonald was very popular.

Mr. J. E. Moore, Mr. E. Cope, president of the Society, presided over the gathering, and several pleasant hours were spent with songs and speeches. The ladies last night had a very successful evening of their own, in the Macleod hotel, the members turned out in force and when the regular business of the meeting had been transacted, all sat down to an excellent supper.

Mr. James Moore, Mr. E. Cope, president of the Society, presided over the gathering, and several pleasant hours were spent with songs and speeches.

driven by Staff Capt. Cox, in his new minibus, was very apparent that 10 years were not far off the moment when the "names of men" vanished from the "names of women".

Tonight the railroads in India and, in fact, gratifying as well as to the public, as well as to the community at large, to witness the steady progress the Association has made, and more especially within the past year. It was started on a small scale, and the room in which the members met was neither large nor well furnished. The gentleman who had the management of the institution, however, was anticipating that the Association would grow, and those efforts were crowned with a good measure of success. A few months back it was thought advisable to secure the services of General Secretary, who came down to Macleod this month to the offices of the Association in Calgary, and, accordingly, Mr. Joseph Ball of Winnipeg, a gentle man well known in connection with Y. M. C. A. work, was offered the position. Mr. Ball's "advent on the scene things have taken a brighter aspect, and under his energetic and business-like methods the Association has made still greater strides, and the number of members has increased considerably. The General Secretary's heart is in his work and he can be found at his post both early and late. Mr. Ball was ably assisted by Mr. W. H. Cushing, Vice-President, Mr. Hull, Bro. & Co., who have had a hand in the stock yards since June, which has given the best of satisfaction. N. McDonald & Co. are the sole agents for Manitoba, the N. W. Territories and British Columbia. The Je Lamont Iron Works of New York are the manufacturers.

The Ministerial party in their special car, "Ottawa," arrived from the east this morning by No. 1 express which was being dropped at Macleod station. The party consisted of Hon. John Blaikie, Minister of Railways; Hon. J. C. Patterson, Minister for Militia; Hon. Senator McLaren, one of the most zealous gentlemen in the Senate, and Mr. A. E. THE U. S. GOVERNMENT AT A STAND.

It is now pretty well understood that what is known as the Geary Exclusion Act, for the deportation of the Chinese in the United States who will not register, will not be enforced. The reason assigned is that Congress has not provided sufficient funds for shipping back to China all the Chinese who refuse to obey the law. Congress had aside \$150,000 for this service, not for a moment assuming that the Chinese would unanimously refuse to register; whereas it is now believed that several millions or more will be necessary to pay the passage. The real reason, however, is believed in some quarters to be the fear of reprisals on the part of the Chinese Government. On this point Rev. Dr. Condit, head of the Presbyterian Chinese missions on the Pacific coast, and who has been engaged in Chinese mission work for over twenty years and spent much time in Southern China, recently said, "I feel that any attempt to enforce the provisions of the Geary Act, so far as to deport the Chinese, in the United States, would be a dangerous thing. I should certainly expect that immediately upon their leaving or the attempt to do this the Chinese Government would order all Americans to leave China at once. Every American building in China would be destroyed, either torn down or burned and the killing of many American residents could hardly be prevented. The first move would, no doubt, be the recalling of the Chinese embassy and consuls now in the United States, and the severing of diplomatic relations. Of course further traffic between China and this country would be out of all question. I am certain that serious trouble will follow the enforcement of the law, because I understand thoroughly the Chinese nature and the Chinese methods of revenge. Then I have something else to judge by in regard to this question, in the shape of a letter from Mr. Martin, president of the Imperial College of Febia. In this letter Mr. Martin says he called me, long ago upon Li Hung Chang, the Chinese minister, and asked him many questions you are not asking me. The only reply Li Hung Chang made was that the Americans would all be driven out. Li Hung Chang is the emperor, and the government. The are slow, but they are the most vindictive people on the earth."

Liabilities \$1,000,000
One of the heaviest failures in the history of Toronto, occurred on Tuesday last, that of the Ontario Coal Co., which has assigned with liquidation. The estate, it is feared, will not be over 50 per cent dividend. The trouble was caused by Americans interested in the company using the credit of the company to secure funds from Canadian banks for the iron ore enterprises. This is the second now in Canada, a similar case having occurred in St. John, N.B., not many years ago, when the Jevett Company, a big lumbering and mining concern, with allied companies in Bangor, Maine, Mass. and other points in the States, went under for a trifling sum, and a half. It is alleged that the failure of the Ontario Coal Co. was brought about by the influence of Yates of Rochester, who had drossed the paper given by the customers of the Ontario Coal Co., which the local banks here accounted to the amount of \$250,000. The bank holds \$250,000, the Ontario \$100,000 and the Traders \$200. The company is said to own half a million to the Pennsylvania coal mines.
